## Visual Insights & Strategic Occupational Readiness (VISOR)

The Visual Insights & Strategic Occupation Readiness Program (VISOR) is designed to lay a foundation for lifelong learning paths and prepare participants for successful opportunities in a next generation workforce.

In the VISOR program you will start with a dream book and visualization plan for building a future that will include balance, enjoyment and inspiration. You will progress through hands on workshops that will teach you powerful skills and insights into a future world filled with artificial intelligence, advanced robotics and many other evolving technologies. You will learn how to independently grow your skillsets, ask intuitive questions and improve your abilities to creatively solve problems.
